

## My eLibrary

1. My List: You can save lists of articles, images, video clips, and any other type of content in eLibrary.
2. Saved Notes: You can make annotation or take notes in documents. You can also email, print and export your notes from the "Saved Notes".
3. My Tags: You can use tagging to label and organize content.
4. My Timelines: You can create event with a specified date or date range and add the URL of the eLibrary items selected from "My list".
5. Saved Slideshows: You can create slideshows with content in eLibrary.
6. Bookcarts: You can add relevant photos, articles, books, videos, maps, essential pages, transcripts and selected websites in your bookcart as an enhanced reading list.
7. Quizzes: You can test others' understanding of different topics and their comprehension of your selected eLibrary content.

Anything you annotated, tagged, or created in My eLibrary can be shared simply by setup an account and distribute the username and password to everyone in your group.

## Printing

1. Click the print function of the Browser to print out the articles.
2. Follow the standard procedures to pay for and collect the printouts.

# eLibrary Curriculum Edition (CE)

**e-Database User Guide**  
電子資料庫使用指南

**eLibrary Curriculum Edition (CE)** is an online collection of scholarly journals, magazines, newspapers, transcripts, e-books and multimedia resources designed for schools and libraries to supplement research. It also offers comprehensive and integrated literary resources through the *ProQuest Learning: Literature*. Students and researchers can also find valuable historical reference material covering global history from ancient times to the present day in the *History Study Center*.

**eLibrary Curriculum Edition (CE)** 收錄學術期刊、雜誌、報紙、電子書及多媒體資料，適合尋找資料作專題研究之用。其中，*ProQuest Learning: Literature* 包含廣泛及綜合的文學資料，而 *History Study Center* 涵蓋古代至現今的歷史資料，為有興趣的人士提供極具價值的線上資源。

## Searching

### **Basic Keyword Search**

1. Enter search terms in the search box.
2. Click **Search**.

### **Advanced Keyword Search**

1. Click the **Advanced Search** link and enter search terms in the search box.
2. Select **Natural Language Search** or **Boolean Search**.
3. Check the types of media: newspapers, magazines, books, maps, websites, pictures, audio/video and/or transcripts. You may select to include newspaper articles older than 90 days and to search within scholarly journals only.
4. Limit results by date range, topic, document language, document title, author name, reading level and publication name.
5. Click **Advanced Search**.
6. You may also click **Create Your Query** to open a special Boolean calculator for a more complex query.

### **Reference Search**

1. Click the **Reference** tab and enter search terms in the search box.
2. Select limitation to dictionaries, thesauri, encyclopedias, almanacs and/or atlases.
3. Click **Search**.

### **Popular Search**

1. Click the **Popular Search** link.
2. Select one of the previous week's 10 most popular search words or phrases to perform a search.

## Displaying the Results

1. Results are displayed on the screen with icon identifying the source type.
2. Click the **Literature** or **History** tab to view results from the built-in content sets: *ProQuest® Learning: Literature* and *History Study Center™*.
3. Click the Preview icons down the right side will show the “best part” of each result.
4. Click the title to view the full document.
5. You may also translate the document into Chinese, Japanese, Korean, French and several other languages.

## Browsing

### **Browsing Topics**

1. Click the Topics tab.
2. Enter search terms in the Search Topic box or choose a topic link from different categories.
3. Review the corresponding subheadings for a narrower focus.

### **Browsing Publications**

1. Click the **Publications** tab.
2. Enter the title in the **Find Publication** box or choose a title by name, by type or by subject.
3. Click the “+” symbol to drill down to a particular issue or release, or click the “-” symbol to hide the issues or releases.

### **Browsing References**

1. Click the **Reference** tab to view the Reference Desk Sources.
2. Select the source from the list.
3. Click the source to see the table of contents.
