高空看家園 • *Our World From Above*

我們都習慣了從一米多的視覺高度來觀看我們的世界，從高處俯瞰周圍環境的機會比較少，許多人可能都從沒機會在高空觀看自己的家園。幸好現代科技可以讓我們利用飛機和人造衛星從高空拍攝地面，讓我們可以從另一角度認識我們的家園。現在就讓我們來開始一次空中之旅吧！

We used to look at our world from the height of about 1 to 2 meters. Sometimes we can overlook our surroundings from a high point, but rarely we can look at our home from above. The developments of technology allow us to take aerial photographs by aircraft and satellite, and they let us look at our home from a different angle. Let's take a tour of our world from above right now!
