Searching Methods

There are three ways to search information in the database:

1. TEXT SEARCH

- Search By Keywords to find the most relevant statistics and analysis
- Search Full Tree: Build a search based on Categories and Topics

2. BROWSING SEARCH

You can select **Industry**, **Category** or **Geography** as the search criteria to browse the results through the following entries:

- **SEARCH BY INDUSTRIES, CATEGORIES AND TOPICS:** Six searching types allow you to narrow the results in a Category Tree by entering keywords
- **COUNTRY REPORTS - DEMOGRAPHICS:** Allow access to articles, key trends and the latest reports related to various industries
- **SEARCH STATISTICS:** Select Industry and Category and then jump directly to country rankings
- **SEARCH ANALYSIS:** Quickly find relevant analysis / market reports on industries, economies and consumers

3. SEARCH DASHBOARDS

Dashboards is an interactive tool to visualise data on industries, economies and consumers in an efficient way. You may learn about consumer trends using the economic, socio-economic and demographic data and explore future opportunities.
