

# 飛向太空

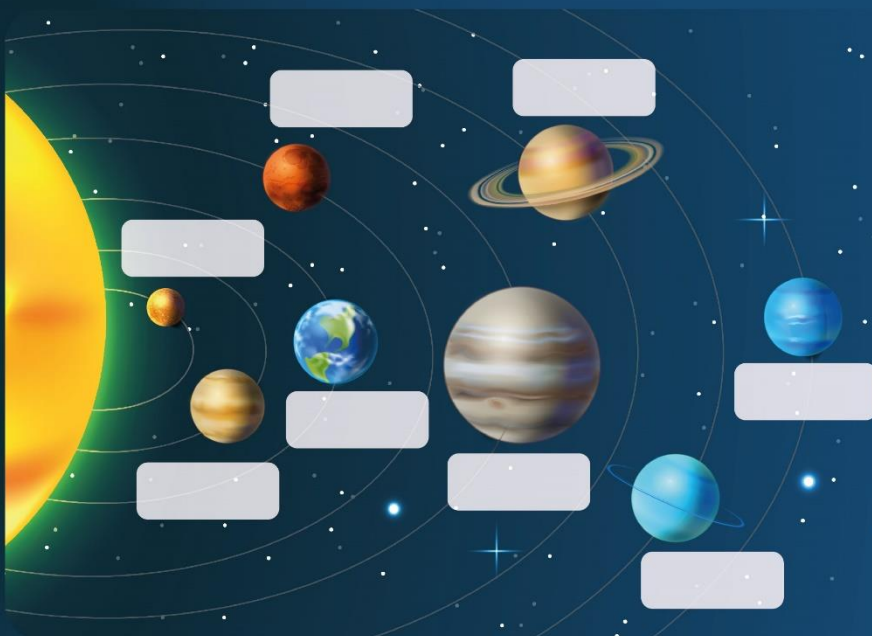

## Fly to the Space

按指示剪出 1, 2 和 3, 發揮創意把它們拼在一起再黏貼在棉繩上, 再將棉繩穿過卡紙上的孔並在背面打結製作太空手工卡。  
 Cut out 1, 2 and 3, assemble them into one group and stick them on the cotton rope. Pass the rope through the holes on the card and tie a knot on the back to create your own space card.

生活在地球上, 抬頭便可仰望天空, 你們對所居住的星球以至太陽系的認識又有多少? 下圖是太陽系的示意圖, 請參考左邊提供的八大行星名稱, 在空格上依序填寫。

We live on Earth and the sky is right above us. How much do you know about the planet you live on and even the solar system? Below is a schematic diagram of the solar system. Please refer to the names of the eight planets provided on the left, and fill in the blanks in order.

- 天王星  
Uranus
- 木星  
Jupiter
- 水星  
Mercury
- 海王星  
Neptune
- 火星  
Mars
- 金星  
Venus
- 地球  
Earth
- 土星  
Saturn

### 小知識 Quick Facts

水星、金星、地球和火星主要由岩石構成, 而木星、土星、天王星和海王星主要由氣體構成。  
 Mercury, Venus, Earth and Mars are mainly composed of rocks whereas Jupiter, Saturn, Uranus and Neptune are mainly composed of gases.
