CLIMATE Change Adjustments for Detailed Engineering Design of Roads : Experience from Viet Nam. Metro Manila, Philippines : Asian Development Bank, c2020.	
---	--

	ADB 625.709 597 CLI
--	------------------------------------

By highlighting worked examples drawn from Viet Nam's road transport sector, it explains the rationale and procedures for incorporating allowances for climate change in detailed engineering design, with a focus on credible adjustments to extreme rainfall and to mean and high-end sea-level rise.

THE COVID-19 Pandemic : Shocks to Education and Policy Responses. [Washington, D.C.] : World Bank Group, 2020.	
---	--

	WB 379.1 COV
--	-----------------------------

The pandemic has already had profound impacts on education by closing schools. It worsens the education outcomes. This publication discusses how school could cope successfully with the closures by using remote learning. At the same time, countries need to start planning for school reopening and adopt new techniques to promote rapid learning recovery in key areas once students are back in school.

**INNOVATION for Sustainable Development : Review
of Georgia.
New York ; Geneva : United Nations, 2021, c2020.**

UN
338.957
95 INN

Studies the factors that support the innovation-led sustainable development in Georgia. Georgia has a tradition of high levels of educational attainment, but skills shortages and mismatches in the labour market constrain private sector innovation. Closer coordination and regular monitoring and evaluation of science, innovation and private sector development policies and instruments will be essential to ensure policy effectiveness.

**LYONS, Angela C., et al.
Building Financial Resilience Through Financial
and Digital Literacy in South Asia and Sub-
Saharan Africa.
Tokyo : Asian Development Bank Institute, c2020.**

ADB
332.042
095 BUI

Investigates the impact of financial and digital literacy on resilience-building financial behaviors, including saving, borrowing, and risk management. The results emphasize that it is important to consider both financial and digital literacy as a dual approach to improving households' long-run financial resilience.

**PRACTICAL Implementation of Core Indicators for
Sustainable Development Reporting. Volume 3:
Case Studies.
New York ; Geneva : United Nations, c2022.**

UN
338.927
PRA

Provides insights on the feasibility of the application of UNCTAD's Guidance on Core Indicators for Entity Reporting on Contribution towards Implementation of the Sustainable Development Goals (GCI) in two companies in Italy. It offers evidence on the practical implementation of the GCI and discusses challenges in reporting these indicators.
