Author, Title and Publishing Information Call No.

ACCELERATING Sustainable Development after Covid-19 : the Role of SDG Bonds. Metro Manila, Philippines : Asian Development Bank, c2021.	ADB 338.95 ACC
--	-------------------------------

Equitable economic growth and sustainable use of natural resources are the new focuses in the bond market under the impact of COVID-19 pandemic. Through analysing the current situation of Sustainable Development Goals bonds in developing Asian markets, this report introduces new possibilities to mobilise the finance and accelerate to achieve SDGs in the region.

BERKELEY Protocol on Digital Open Source Investigations : a Practical Guide on the Effective Use of Digital Open Source Information in Investigating Violations of International Criminal, Human Rights and Humanitarian Law. New York ; Geneva : United Nations, c2022.	UN 345.052 BER
---	-------------------------------

This publication introduces the "Berkeley protocol on digital open source investigation", which establishes the guidance on methodology and procedure of conducting online research without violating international criminals, human rights and humanitarian laws. It also illustrates the application of the protocol for online investigators to protect their own digital, physical and psychosocial safety and the others'.

**BOOSTING Trade Opportunities for Least-developed Countries : Progress over the Past Ten Years and Current Priorities.
Geneva : World Trade Organization, c2022.**

**GATT
338.91091724
BOO**

This report examines the progress of global trading opportunities in least-developed countries and recognises a significant improvement in the past decade. However, facing the challenges of post COVID-19 pandemic impacts, the report also highlights that further international supports are needed to boost LDCs participation in global multilateral trading system.

**COMMODITIES at a Glance. No. 15, Special Issue on Bamboo.
Geneva : United Nations, c2022.**

**UN
338.175849
COM**

This report investigates the potential of bamboo as a new resource for building materials and its competitiveness comparing with the conventional materials such as timber, steel and concrete. It also presents how bamboo resources could benefit the construction sector of developing countries and imply further impacts on the downstream industries.

**IMPLICATIONS of COVID-19 for Biodiversity-Based Products and Services, Including BioTrade.
New York ; Geneva : United Nations, c2022.**

**UN
338.47641302
IMP**

This report conducts a comprehensive investigation on the COVID-19 pandemic impacts on biodiversity-based products and services based on survey findings from a large variety of foundations and regions. It summarises the opportunities raised and adversities encountered by the respondents within the period, and finally indicates and accesses the solutions suggested from respondents' experience.
