658.872
HAN**

Digital trade advances with technological innovations nowadays and methodology to investigate becomes a common issue. This handbook provides conceptual standards and systematic framework for researchers in measuring digital trade in view of macro-economic statistics with comprehensive compilation guidance, data analysis and corresponding case studies.

**POPULATION and Development Report : Building Forward Better for Older Persons in the Arab Region.
Beirut, Lebanon : United Nations, c2022.**

**UN
362.60953
POP**

Due to the continuous drop in birth rate after the population bomb in recent decades, the problem of ageing population in Arab region is worsening to an alarming level in next thirty years. This report concerns the issue and indicates the weaknesses of the social welfare system, in terms of protection and long-term care for elderly, and suggests policies for system improvement and demographic planning as permanent solution.

**TACKLING Illicit Trade in Medical Products : Better International Cooperation for Better Health.
Geneva : United Nations, c2022.**

**GATT
363.45
TAC**

Illicit trade in medical products has gradually become a serious global problem to damage both the public health and economy in countries. This publication illustrates how WTO policy supports their members to tackle the problem by enhancing the transparency and predictability of the medical products markets, and strengthening the cooperation networks of stakeholders in trade to resist illicit activities.

**UPDATED Strategies for Monitoring and Assessment of Transboundary Rivers, Lakes and Groundwaters.
New York ; Geneva : United Nations, c2023.**

**UN
333.910094
UPD**

For adaptation of current conditions and effectiveness of cross border cooperation, the updated strategies for monitoring and assessment of transboundary water resources have been established in UNECE Water Convention 2023. This report focuses on the implementation of new strategies by necessary joint efforts from involved parties and promoting sustainable management and protection of global water resources.
