Greening China's rural energy : new insights on the potential of smallholder biogas.	333.794
---	----------------

Washington, D.C. : World Bank, 2012.	CHR
---	------------

Investigates the household fuel use patterns and the role of biogas in promoting transition to clean fuels in rural China; and evaluates the environmental, economic and health benefits of using biogas.

DIVIDED we stand : why inequality keeps rising.	OECD
--	-------------

Paris : OECD, c2011.	339.2
-----------------------------	--------------

	DIV
--	------------

Studies the underlying forces and key drivers of rising inequality, including globalisation, technological change, wage & earnings inequalities and their related policies & institutions. It also discusses the policies used to tackle the inequality problem.

ECOLOGICAL footprint and investment in natural capital in Asia and the Pacific. Manila, Philippines : Asian Development Bank ; Gland, Switzerland : World Wide Fund for Nature, c2012.

**ADB
338.927
ECO**

Examines the ecological problems such as biocapacity deficit & declining biodiversity in Asia and the Pacific region, and the initiatives to sustain the region's natural capital and the invaluable services that it provides.

**FERNANDES, Ana Margarida
The risks of innovation : are innovating firms less likely to die?
Washington, D.C. : World Bank, 2012.**

**WB
658.872
FER**

The study takes the firms in Chile as examples and explores the relationship between product innovation and firm survival. It also deals with the elements affecting the innovation-survival link.

**HOW's life? : measuring well-being.
Paris : OECD, c2011.**

**OECD
306
HOW**

Discusses the most important aspects that shape people's lives and well-being, e.g. income, jobs, housing, health, work & life balance, environment, and other factors; and reviews people's material living conditions and quality of life across the population.
